

MITYA

Concerto for Clarinet

for solo B \flat clarinet, chamber orchestra and electronics

**Taylor Brook
2010**

Score in C

Instrumentation

flute (+ piccolo)

oboe

B^b clarinet

tenor saxophone

baritone saxophone

Bassoon

horn

trumpet in C (cup, straight and harmon mutes)

trombone (cup, straight and harmon mutes)

tuba

solo B^b clarinet

2 percussion:

I - 3 sizzle cymbals

I - 3 suspended cymbals

I - vibraphone

I - almglocken (A3, D4, E4, A4 and B4)

I - crotale (G6 only)

I - lion's roar

I - bass drum

I - pitched gongs (D3 and A3)

II - almglocken (B3, C#4, F#4 and G#4)

II - 3 sizzle cymbals

II - pitched gongs (E3, A3 and D4)

II - 3 timpani (32", 29" and 26")

II - wine glass (D5)

II - tubular bells

harp

2 violins

viola

cello

contrabass

MIDI keyboard (77 or more keys)

electronics (see performance instructions for details)

Concert Notes

Mitya, a clarinet concerto by Taylor Brook, was composed in partial fulfilment of the Master's of Music degree at McGill University, under the supervision of Brian Cherney and Sean Ferguson. Mitya is dedicated to the clarinetist Mark Bradley.

The title of this clarinet concerto is a reference to Kitty and Levin's son in Leo Tolstoy's Anna Karenina. In the final chapters of the novel, Tolstoy describes the process of conception, pregnancy, birth and infancy from the perspective of the father. Simply put, the emotional state of the father, Levin, moves from confusion and fear to understanding and acceptance.

In addition to informing the composition on a purely abstract level, I also used passages of the novel to develop the large-scale form and structure of the work. By avoiding word painting and the desire to make the story evident through the music alone, I have abstracted the dramatic contour from its original contents. I am interested in the derivation of musical form and structure from strong physical and emotional experiences such as the conception and birth of a child in the hope that these nearly universal and life-altering experiences may speak to an innate human emotionality. Perhaps, also, the act of artistic creation can be understood as a life-giving activity in which one's creation will go on to have a life of its own.

Mitya has three movements, performed without breaks. Each movement is defined by a different tonal centre and approach to harmony. The first movement focuses on the note A5 as a point of reference, played by the clarinet throughout the movement. As this A holds, harmonies fade in and out around it, giving the held note several different harmonic functions. The second movement is a passacaglia, which modulates up a just major third with every cycle of the passacaglia theme. Because of the unusual modulations, the tonality of the second movement slides further and further away from equal temperament as the theme repeats. The final movement features a clear D pitch centre throughout, with many different harmonies changing in reference to the D using a quasi-functional harmonic system.

électroniques (voyez les instructions d'interprétation pour details)

Notes de programme

Ce concerto pour clarinette, *Mitya*, a été écrit pour ma Maîtrise en Musique à l'Université McGill, sous la direction du compositeur Brian Cherney. *Mitya* est dédiée au clarinetiste Mark Bradley.

Le titre, *Mitya*, vient du nom du fils de Kitty et Levin dans le roman de Leo Tolstoy, *Anna Karenina*. L'inspiration principale est le processus de naissance, c'est-à-dire de la conception jusqu'à la jeune enfance. Mais ce processus est vu à partir de la perspective du père, Levin, tel que décrit par Tolstoy dans les derniers chapitres de son roman. Les expériences de Levin concernant la naissance de son fils, Mitya, débutent avec la peur et la confusion, et se terminent par la compréhension et l'acceptation.

En plus de servir de source d'inspiration émotive pour la pièce, le concept de naissance a également été utilisé pour en créer la structure. Mon intention n'était pas de faire une pièce où l'histoire est évidente, mais plutôt d'extraire d'expériences émotionnelles très fortes, telle la naissance d'un enfant, des structures et des formes musicales. Après tout, l'acte de création artistique ne peut-il pas être vu aussi comme la naissance d'un enfant?...

En ce qui concerne la construction de la musique, *Mitya* est en trois mouvements ininterrompus. Chaque mouvement est défini par une tonalité et un système harmonique différent. Le premier mouvement a comme note centrale un La, joué par la clarinette pendant tout le mouvement. Les harmonies apparaissent et disparaissent autour de ce La, y conférant ainsi plusieurs fonctions harmoniques. Le deuxième mouvement est une passacaille dont le thème est modulé d'une tierce majeure juste avec chaque itération. Ces modulations font que la musique s'éloigne progressivement du tempérament égal. Le troisième et dernier mouvement se concentre sur un Ré grave avec, au dessus, plusieurs variations harmoniques.

notation and performance instructions

microtonality and just intonation

Although there are many microtones in this work, much of the harmony is quite consonant. The microtones are used to approximate just intervals, therefore small adjustments should be made by ear to play these intervals perfectly in tune. I advise to listen for the root of the chord (when present) in order to understand your particular role in the harmony.

The following accidental nomenclature is also used to approximate exact pitches:

$\flat - \sharp$ approximately 1/4 tone flat or sharp

$\downarrow - \uparrow$ approximately 1/6 tone flat or sharp

$\flat - \flat - \natural - \natural - \sharp - \sharp$ approximately 1/12 tone flat or sharp

The accidentals showing the twelfth-tone (one sixth of a semitone) alterations should be thought of as extremely small inflections of the pitch. This minute alteration in pitch equals the difference between the just major third (the fourth harmonic, accessible on any string or brass instrument) and the equal temperament major third. Wind players need not use alternate fingerings for these pitches, instead they should inflect the pitch slightly as performers must do in tonal music performance practice when tuning the third of a chord. In other words, it is best to treat the notes with these accidentals as if they required a slight inflection for the sake of good tuning.

The sixth-tone (one third of a semitone) alteration equals the difference between the seventh harmonic and the equal temperament minor seventh. In other words, the seventh harmonic is a sixth-tone flat of the equal temperament minor seventh. This difference may be demonstrated by sounding the seventh harmonic on the fourth string of the cello; the pitch of this harmonic will be a sixth-tone flat of an equal temperament B-flat.

The quarter-tone alteration should be precisely halfway between the equal tempered pitches. The quarter-tone alteration can be heard at the 11th partial of the harmonic series, which is exactly halfway between the perfect fourth and the tritone.

The most important thing to keep in mind is that the goal of these microtones is often to realize acoustically consonant harmonies; if the performer can recognize their role in the harmony, this will ensure optimal tuning of the microtones.

This excerpt from the score indicates for the horn player use the partials of an E. As shown in the excerpt below, these partials are written as a number above the notes. The seventh partial is a sixth-tone flat, the tenth a twelfth-tone flat and the eleventh a quarter-tone sharp.

notation

dotted line - Signifies a gradual change from the marking at the beginning of the dotted line to what is marked at the end. The dotted line is used both for tempo changes as well as playing techniques. For example, if you find in your part an “ord” marked with a dotted line leading to “alto sul tasto” then it should be executed as a gradual movement of the bow from the ordinary playing position to the alto sul tasto position for the duration between the beginning of the dotted line and the end.

Glissandi must be performed for the entire duration of the note.

\emptyset - niente - (A dynamic approaching silence.)

Θ - dampen symbol

fast as possible - (Play given notes as rapidly as possible.)

quasi gliss - (The passage marked doesn't require rhythmic accuracy, but should be more gestural.)

notation et instructions d'interprétation

intonation juste et les microtones

Bien qu'il y ait beaucoup de microtons dans cette œuvre, une grande partie de l'harmonie est tout à fait consonante. Les microtons sont employés pour appoximer les intervalles naturels. Pour cette raison, de petites modifications devraient être faites à l'oreille pour se rapprocher le plus possible des intervalles naturels. Je vous conseille d'écouter la fondamentale de l'accord (lorsque présente) et de comparer votre note afin de comprendre son rôle dans le cadre d'une harmonie naturelle.

Les symboles suivant sont utiliser pour approximer les hauteurs:

↓ - ♭ aux environs d'un 1/4 ton bas ou haut

↓ - ↑ aux environs d'un 1/6 ton bas ou haut

♭ - ♯ - ♭ - ♯ - ♭ - ♯ aux environs d'un 1/12 ton bas ou haut

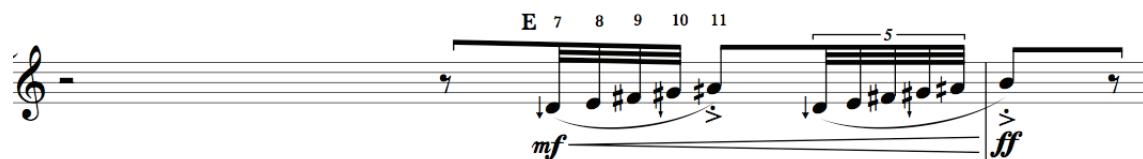

Les symboles qui signifient les modifications par un douzième de ton (un sixième d'un demi-ton) peuvent être traités comme une inflexion extrêmement minuscule. Cette alteration minuscule est égale à la différence entre la tierce majeure juste et la tierce majeure en tempérament égal. Les jouers des vents n'ont pas besoin d'utiliser une doigté inhabituel pour ces notes; ils peuvent infléchir les notes légèrement, comme on le fera naturellement en jouant la tierce d'un accord dans la musique tonale. Autrement dit, il est préférable de traiter les notes avec ces signes accidentels comme si elles étaient des notes «réguliers» qui n'exigeaient qu'une petite inflexion pour être bien accordées.

L'alteration d'un sixième de ton égale la différence entre le septième partiel et le septième mineur en tempérament égal. Autrement dit, le septième partiel est un sixième de ton plus bas que la septième mineur en tempérament égal. La différence peut être démontrer en jouant le septième partiel sur la quatrième corde du violoncelle; l'hauteur qui en résulte est un sixième de ton plus bas que le Si bémol sur un instrument tempéré.

L'alteration d'un quart de ton doit être exactement mi-chemin entre les demi-tons de tempérament égal. Le quart de ton peut-être entendu à la onzième partial, qui est exactement mi-chemin entre le quatrième et le triton.

C'est important de savoir que la fonction des microtons est souvent de réaliser des accords consonant, donc si le joueur peux identifier leur rôle dans l'accord, l'accordage plus ou moins exact en résultera.

Cet extrait de la partition indique que le joueur du cor dois utiliser les partiels d'un Mi, démontrés par les chiffres au dessus des notes. Le septième partiel est un sixième de ton plus bas que le Ré tempéré, le dixième partiel un douzième de ton plus bas que le Sol dièse tempéré, et l'onzième partiel un quart de ton plus haut que le La bécarré.

notation

pointillé - Le pointillé indique une modification progressive entre l'indication initiate et l'indication ciblée. Le pointillé est utilisé pour les changement de tempo ainsi que pour les techniques d'exécutions. Par exemple, si vous trouvez dans votre partition l'indication "ord" avec un pointillé à l'indication "alto sul tasto", vous devez graduellement déplacer l'archet de la position "ord" à la position "alto sul tasto" pendant la durée entière du pointillé.

Les glissandi doivent être exécutés pour la durée entière de la note.

o - niente - (Une nuance qui s'approche du silence.)

∅ - étouffer

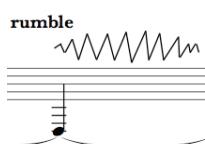

fast as possible - (Notes joués le plus vite possible.)

quasi gliss - (Le passage indiqué n'exige pas l'exactitude rythmique, mais devrait être plus gestuel.)

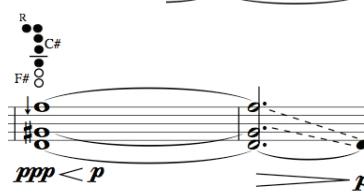

B♭ clarinet soloist

Λ - tongue accent

>- breath accent

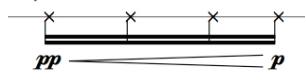

rumble - (create an intense tremolo-type sound by either oscillating the back of the tongue rapidly or shaking the clarinet)

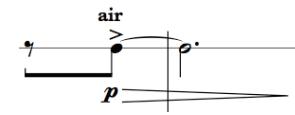

gradually remove upper partials - (this is written above some multiphonics, indicating that the multiphonic should gradually shift into the fundamental as a regular note)

winds

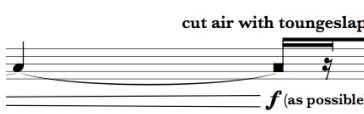

keyclicks

keyclick - (press keys down forcefully without blowing through the instrument to make a percussion noise.)

air - (Blow through the instrument to make an air noise.)

cut air with toungeslap - square notehead - (suddenly stop the flow of air into the instrument with the tongue in a forcefull manner, not only suddenly stoping the note, but also making a percussive noise with the tongue.)

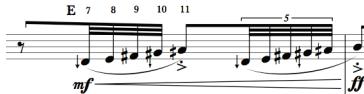

aeolian - aeolian tone - (pitched air, for the flute only.)

w.t ad lib. - whistle tones ad lib - (produce any whistle tones over the given fundamental, written as a diamond notehead. For the flute only.)

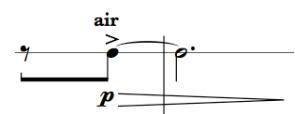

Λ - tongue accent

>- breath accent

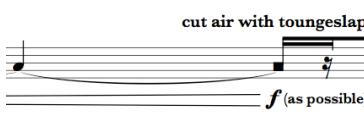

brass

The horn is asked to play certain partials in their uncorrected tuning, this is notated by the fundamental note name and partial number written above the notated pitch.

air - (Blow through the instrument to make an air noise.)

cut air with toungeslap - square notehead - (suddenly stop the flow of air into the instrument with the tongue in a forcefull manner. This technique will not only stop the note, but also produces a percussive noise.)

hand bend - (Horn only - Bend the pitch by gradually inserting or removing your fist from the bell of the horn.)

Λ - tongue accent

>- breath accent

strings

Natural harmonics are notated as a small circle above the sounding pitch. Harmonics written on pizzicato notes should be played more forcefully than normal pizzicatto notes in order to bring out the bell-like timbre.

ord. - ordinario

s.t. - sul tasto - (Bow over the end of the fingerboard.)

a.s.t. - alto sul tasto - (Bow 5-7 centimetres up the fingerboard.)

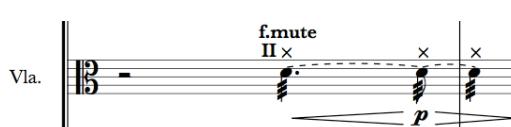

s.p. - sul ponticello - (Bow close to the bridge.)

a.s.p. - alto sul ponticello - (Bow so that part of the hair is on the bridge and part is on the string, thereby producing a quiet but harsh sound. This technique will often silence the fundamental pitch of the string.)

c.v. - con vibrato

s.v. - senza vibrato

full bows throughout - (play using the entirety of the bow, resulting on variable bow speed dependant on the bow markings.)

f.mute - fingered mute - (Mute the open string(s) with your left hand while bowing normally so that only pitchless noise is produced. An "X" is written above each notehead to signify this technique.)

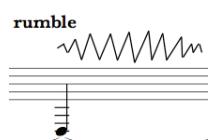

percussion

Never dampen any of the instruments unless the dampen symbol is notated.

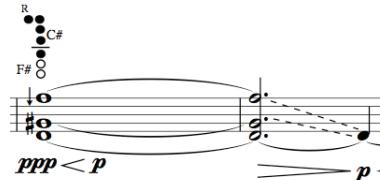

solistes B♭ clarinette

Λ - accent de la langue

>- accent du souffle

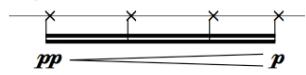

rumble - (produisez un type de son tremolo intense par un mouvement vite avec l'arrière de la langue ou par secouant la clarinette.)

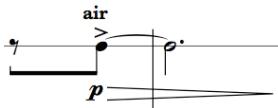

gradually remove upper partials - (cette phrase, qui apparaît au dessus de quelque multiphoniques, indique que le multiphonique doit se transformé (ou se «résoudre») peu à peu à la hauteur fondamentale.)

vents

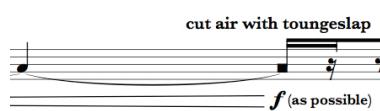

keyclicks

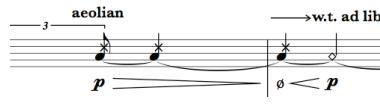

keyclick - (Appuyez les Clés avec puissance sans souffle pour produire un bruit percussif.)

air - (Soufflez dans l'instrument pour produire un bruit de souffle uniquement.)

cut air with tonguelap - note carrée - (interrompre le passage du souffle dans l'instrument d'un coup sec en utilisant la langue avec puissance. Cette technique ne fait qu'arrêter le son, mais produit aussi un bruit percussif.)

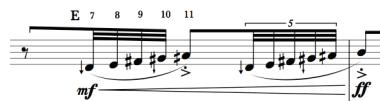

aeolian - aeolian tone - (souffle avec ton, pour la flûte seulement)

w.t ad lib. - whistle tones ad lib - (produisez les "whistle tones" avec le fondamentale donné, écrit comme une note en losange. Pour le flûte seulement)

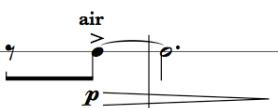

Λ - accent de la langue

>- accent du souffle

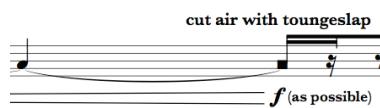

cuvres

Le cor doit jouer certains partiels naturellement faux, indiqué par la fondamentale avec le nombre du partiel désiré au-dessus la note.

air - (Soufflez dans l'instrument pour produire un bruit de souffle.)

cut air with tonguelap - note carrée - (interrompre le passage du souffle dans l'instrument d'un coup sec en utilisant la langue avec puissance. Cette technique ne fait qu'arrêter le son, mais produit aussi un bruit percussif.)

hand bend - (Cor seulement - modifier la justesse en insérant ou en retirant votre main de la cloche du cor.)

Λ - accent de la langue

>- accent du souffle

cordes

Les harmoniques naturelles sont notées avec un petit cercle au-dessus de la note. Les harmoniques pour pizzicato devraient être jouées avec plus de force que des notes normales de pizzicato afin de reproduire un timbre de cloche.

ord. - ordinario

s.t. - sul tasto - (Jouer sur la touche.)

a.s.t. - alto sul tasto - (Jouer le plus haut possible sur la touche, très près des doigts de la main gauche.)

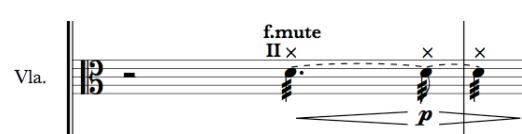

s.p. - sul ponticello - (Jouer près du chevalet.)

a.s.p. - alto sul ponticello - (Jouer presque sur le chevalet. Souvent, cette technique oblitérera la fondamentale de la corde.)

c.v. - con vibrato

s.v. - senza vibrato

full bows throughout - (Jouez avec l'arc entier, et qu'il fasse rapidité de l'arc variable qui dépend sur les indications de l'arc.)

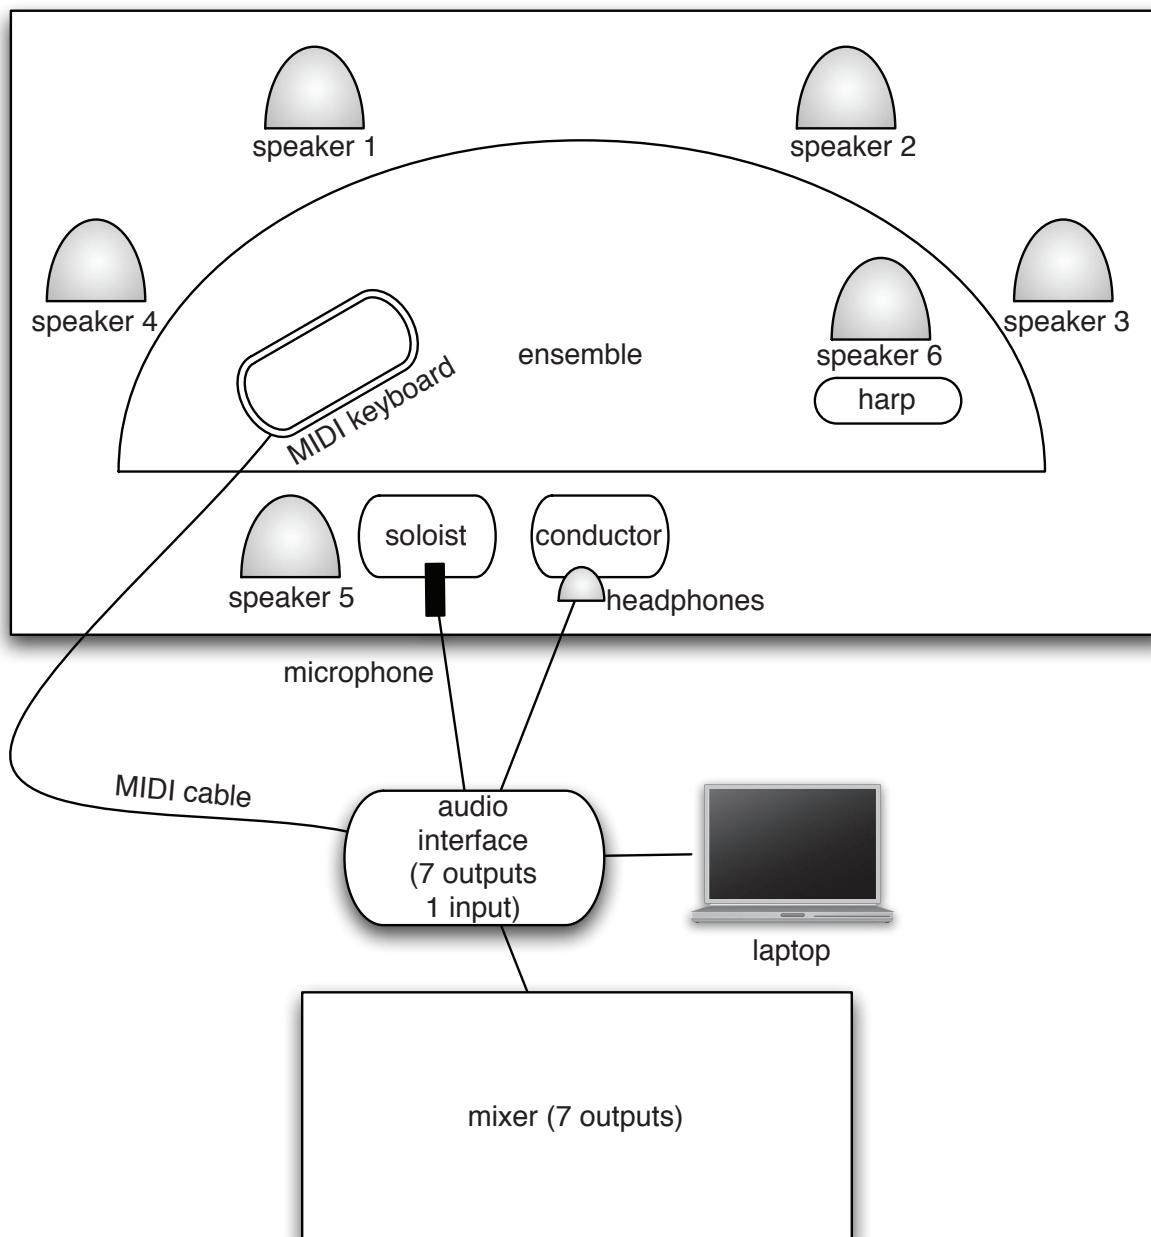

f.mute - fingered mute - (Etouffer les cordes ouvertes avec la main gauche tout en jouant normalement de façon à ce que seulement le bruit soit produit. Il y a une "x" au-dessus de chaque note pour signifier cette technique.)

percussion

Ne jamais étouffer les instruments à moins que le symbole d'étouffement soit écrit.

staging and electronics

electronics

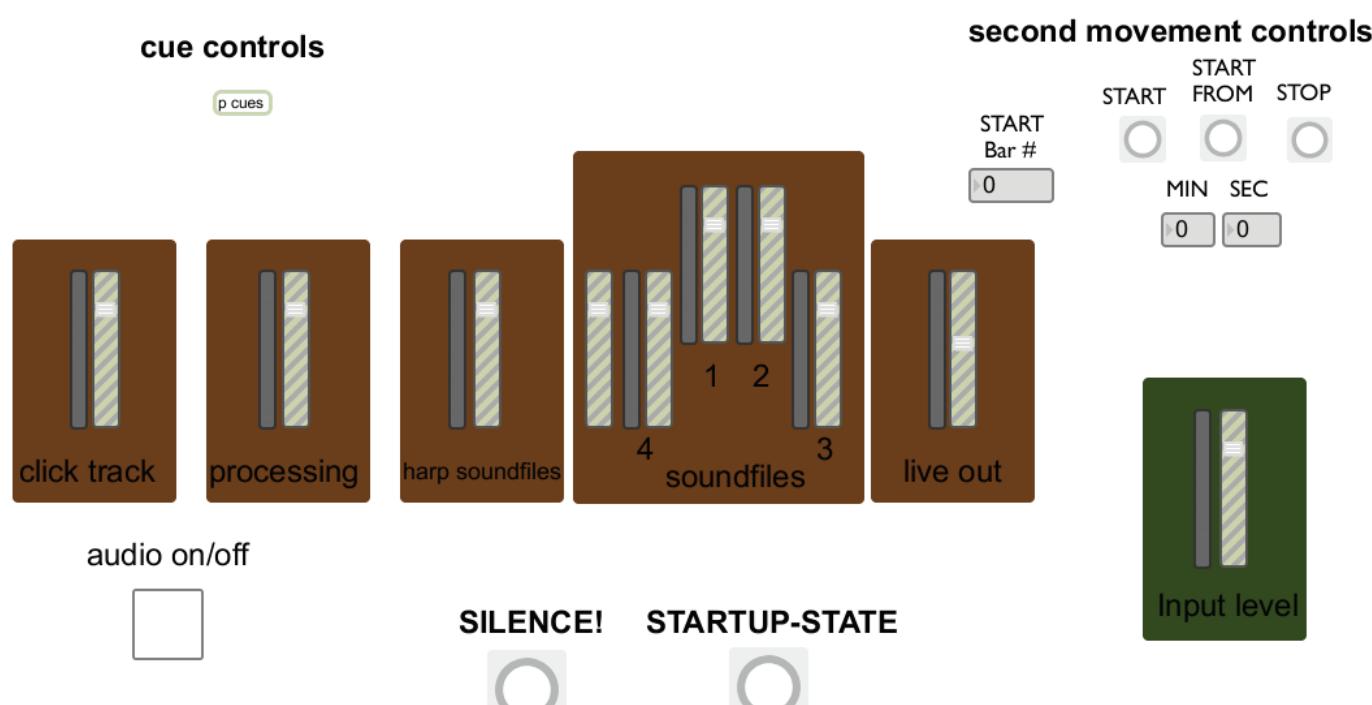

For realizing the electronic component of this piece, the exact technical details, a Max/MSP patch as well as all necessary soundfiles are contained on an accompanying DVD.

This composition requires the following equipment:

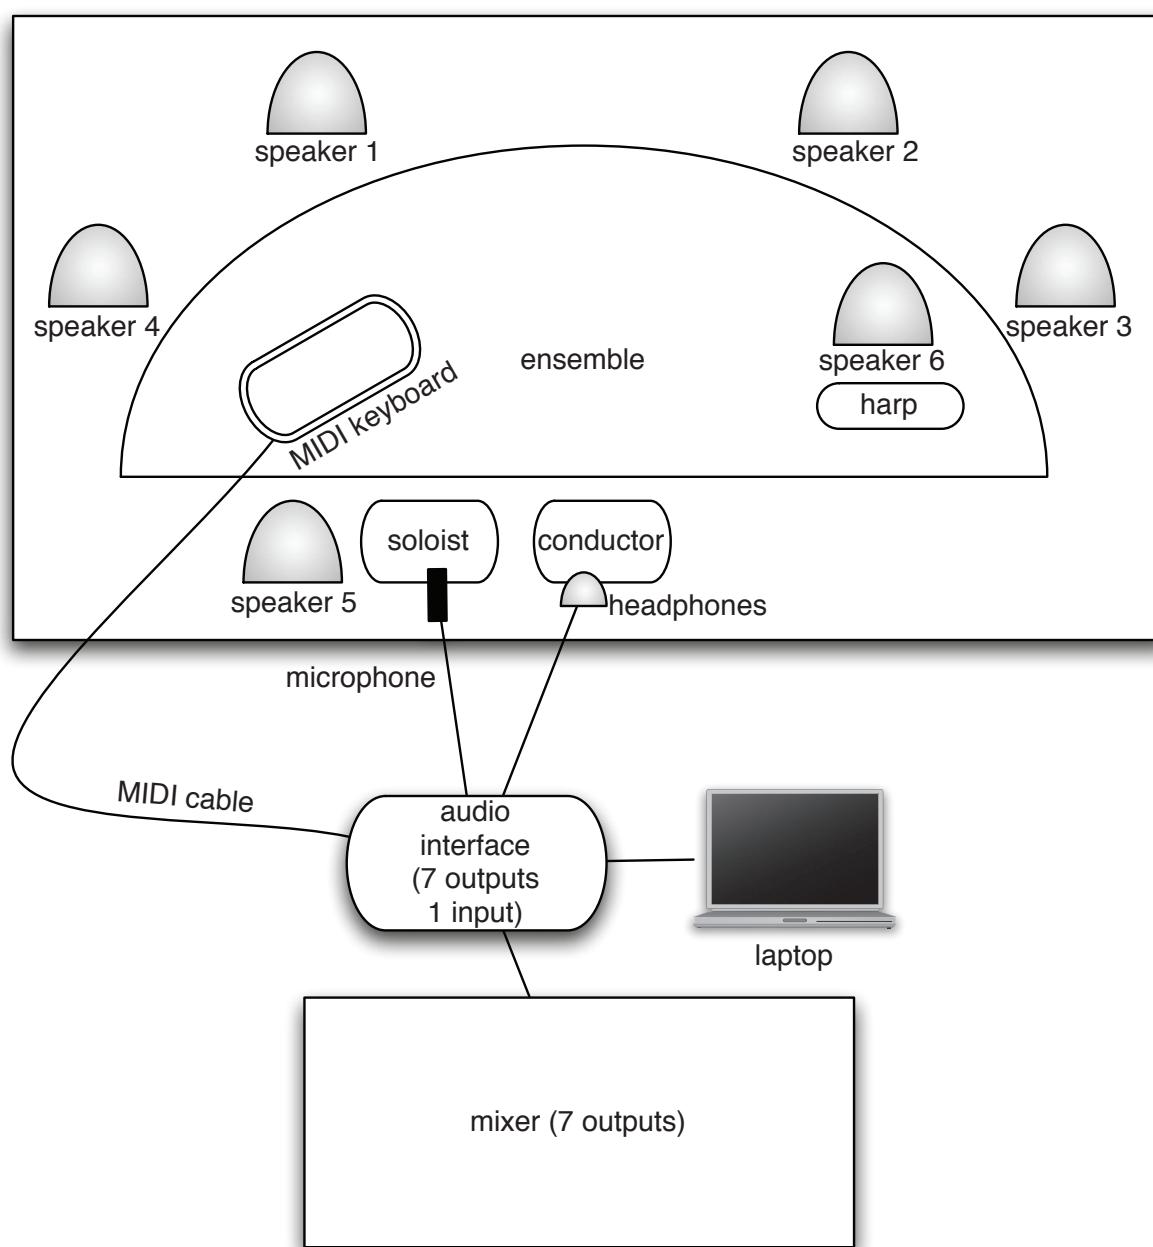

- 1 speaker placed in close proximity to the clarinet soloist
- 1 speaker placed just behind the harp, ideally played into the soundboard of the harp
- 4 speakers behind the ensemble, raised at least five feet high so that they may project sound over the musicians into the hall
- 1 clarinet microphone (preferably a condenser clip-on mic)
- 1 MIDI drumpad for the second percussionist
- computer running max/MSP 5.0 or higher
- an audio interface with a minimum of 1 input and 7 outputs
- 1 set of headphones to be used by the conductor for the clicktrack in the second movement

note: Only the clarinet soloist needs to have a microphone; the output of the clarinet microphone is sometimes processed live by the max/MSP patch. Otherwise, the electronic component is entirely soundfile diffusion.

MAX/MSP patch

mise en scène et électroniques

électroniques

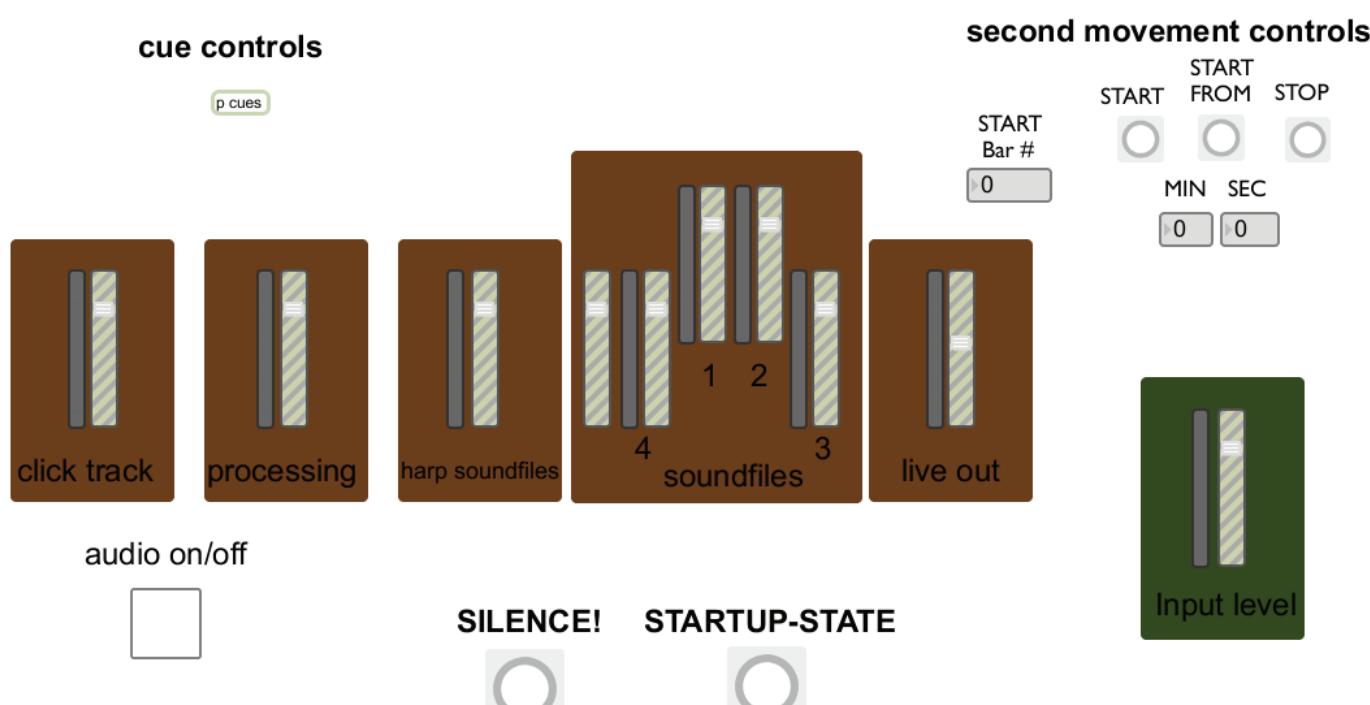

Quand à la réalisation de la partie électronique, des instructions détaillés, un programme Max/MSP et tout les échantillons nécessaire sont inclus sur le DVD qui accompagne la partition.

Cette pièce exige l'équipement suivant:

- 1 haut-parleur placé proche du concertiste
- 1 haut-parleur placé un peu en arrière de la harpe, idéalement orienté pour qu'il joue dans le corps de la harpe
- 4 haut-parleurs en arrière de l'ensemble, surélevé d'au moins 1.5 mètres pour que le son se propage dans la salle, au dessus des musiciens.
- 1 microphone pour la clarinette (idéalement du type «condensor clip-on»)
- 1 clavier MIDI à 77 clés
- un ordinateur avec max/MSP 5.0 ou après
- une interface audio avec un minimum de une entrée et sept sorties
- écouteurs pour le chef d'orchestre pour le «clicktrack» dans la deuxième partie.

Seullement la clarinette solo a besoin d'un micro; les autres instruments n'ont pas besoin d'amplification. Le son de la clarinette est parfois transformé par max/MSP; plus souvent, les électroniques servent à déclencher des échantillons.

click track begins (conductor only)

28 **II** ♩ = 60

Musical score for orchestra and woodwind quintet. The score includes parts for Flute (Fl.), Oboe (Ob.), Bassoon (B. Cl.), Trombone (T. Sx.), Bass Trombone (B. Sx.), Bassoon (Bsn.), Horn (Hn.), Clarinet (C. Tpt.), Trombone (Tbn.), and Tuba. The score consists of two systems of music. The first system starts with a dynamic of ffff followed by pp . The second system begins with a dynamic of mp , followed by pppp .

II ♩ = 60

Musical score for brass section (Bb Clarinet solo) and percussion. The Bb Clarinet part features a melodic line with dynamic markings $\text{ppp} < \text{p}$, $> \text{ppp} < \text{mf}$, and ppp . The Percussion section includes parts for Percussion 1 (4 CYMBALS) and Percussion 2 (BELLS + 3 SIZZLES). The H. P. (Horn) part also has a dynamic marking of $\text{ppp} \longrightarrow \text{mp}$.

II ♩ = 60

Musical score for strings (Violin 1, Violin 2, Viola, Cello) and brass section (Trombone). The strings play sustained notes with dynamics ppp . The brass section plays sustained notes with dynamics ppp and pppp . The Cello part includes a dynamic marking of $\text{ppp} \longrightarrow \text{p} \longrightarrow \text{ppp}$.

This page contains musical notation for a full orchestra. It includes staves for Flute, Oboe, Bassoon, Trombone, Bass Trombone, Bassoon, Horn, Cornet, Trombone, Tuba, Bass Clarinet (solo), Percussion 1, Percussion 2, Double Bass, Violin 1, Violin 2, Cello, Double Bass, and Electric instruments. The score features complex rhythmic patterns, dynamic markings such as *pppp*, *p*, *ff*, and *ff*, and performance instructions like "air" and "norm.". The instrumentation is varied, with some parts like the Bass Clarinet solo and Electric instruments appearing only on this page.

48

The image shows a single page from a complex musical score. The page is organized into ten staves, each representing a different instrument or group of instruments. From top to bottom, the staves are: Flute (Fl.), Oboe (Ob.), Bassoon (B. Cl.), Trombone (T. Sx.), Bass Trombone (B. Sx.), Bassoon (Bsn.), Horn (Hn.), Clarinet (C Tpt.), Trombone (Tbn.), and Tuba. Below these are two staves for Percussion (Perc. 1 and Perc. 2), followed by a staff for Double Bass (Hp.). The next section contains five staves for Strings: Violin 1 (Vln. 1), Violin 2 (Vln. 2), Viola (Vla.), Cello (Vlc.), and Double Bass (Cb.). At the very bottom is an Electric Bass (El.) staff. The music is divided into measures by vertical bar lines. Numerous dynamics are indicated throughout, such as 'pppp', 'pp', 'ff', 'mf', 'p', and 'air'. Performance instructions like 'norm.', 'f.mute', and 'G# F' are also present. The score is written on standard five-line staves.

Detailed description: This is a page from a musical score for orchestra and electronics. It features ten staves of traditional instruments (Flute, Oboe, Bassoon, Clarinet, Trombones, Horn, Trumpet, Tuba, Bassoon solo, Percussion) and two staves for electronic components (MIDI keys and a synthesizer). The score includes dynamic markings such as pppp, mf, pp, f, and specific performance instructions like 'partial hand bend' and 'air'. The page number 55 is at the top left, and the page number 13 is at the top right. The music consists of several measures of music with various note heads, stems, and beams. The instruments play different parts, with some like the bassoon and bassoon solo having prominent parts while others like the oboe and trumpet have more subtle roles. The percussion and electronic parts provide rhythmic and harmonic support. The score is written on standard five-line staves with clefs and key signatures.

63

A complex musical score page featuring multiple staves for various instruments. The instruments listed on the left are Flute, Oboe, Bassoon, Trombones, Clarinet, Horn, C Trumpet, Trombone, Tuba, Bass Clarinet solo, Percussion 1, Percussion 2, Double Bass, Violin 1, Violin 2, Viola, Cello, Double Bass, and Electric Bass. The score includes dynamic markings like pppp, mp, f.mute, and slide r.h. first finger. Fingerings are indicated above some notes, such as R, F, and G. Measure numbers 7 through 11 are shown above the Hn. staff. The page is filled with detailed musical notation, including stems, beams, and rests.

Detailed description: This page from a musical score contains ten staves of music. The top section includes staves for Picc., Ob., Bb Cl., T. Sx., B. Sx., Bsn., Hn., C Tpt., Tbn., and Tuba. The middle section features a solo Bb Clarinet staff with dynamic markings *p*, *f*, *p*, *f*, and *pppp*. Below this is a dynamic instruction '(gongs and bass drum)'. The bottom section includes staves for Percussion 1, Percussion 2, and a single HP. staff. The final section consists of five staves for strings: Vln. 1, Vln. 2, Vla., Vlc., and Cb., each with slurs and grace notes. The page number 39 is in the top right corner.

This musical score page contains ten staves of music, each representing a different instrument or group of instruments. The instruments listed from top to bottom are: Flute (Fl.), Oboe (Ob.), Bassoon (B. Cl.), Tenor Saxophone (T. Sx.), Bass Saxophone (B. Sx.), Bassoon (Bsn.), Horn (Hn.), Clarinet (C Tpt.), Trombone (Tbn.), and Tuba. Below these staves, there is a single staff for the Bass Clarinet solo (Bb Cl. solo). The score includes dynamic markings such as *ff*, *p*, and *f*. The bass clarinet part features a melodic line with grace notes and specific performance instructions like "lip down". Percussion parts are labeled (almglocken) and (wine glass) for Percussion 1 and Percussion 2 respectively. The score concludes with staves for Violin 1 (Vln. 1), Violin 2 (Vln. 2), Cello (C. b.), Double Bass (Cb.), MIDI keys, Electric Bass (El.), and a final staff for El.
